### Rate your comfort level with teaching music at the BEGINNING of the day

### Rate your comfort level with teaching music at the END of the day

#### Three discoveries from today:

Get student engaged, ice breaker, explore different elements Remembering the recorder! Using manipulatives for music We could all be teaching music in our next practicum Can teach music in a kinesthetic fashion, the components to a music piece, and how to play a recorder I liked the pass the rock, the melody map with rope and haven't played the recorder before teaching basic musical elements to primary/intermediate kids how to teach finding with basic materials the difficulty some people experience with the recorder I discovered that I was able to recall how to use and play the recorder from ...

#### Two burning questions you still have:

How do I read notes, how to follow a music sheet What percentage of homeroom teachers are assigned music to teach? How can you incorporate music into other subjects? How to integrate music with different subjects and whats the chance of a core teacher teaching music? What routines to use the first week? Ideas

about using popular music? How to teach strings how to engage kids who do not want to participate How do I know how long to hold certain notes for? How do you know what songs are age appropriate for students to play? Whether the music curriculum uses moveable or fixed Do when reading mus ...

### One professional development need or request with teaching music

Read music not just being able to play it More recorder Learning how to read music Resource for diverse cultural music how likely is it that you will have enough time to meet all curriculum points More information on assessment for students in music. How to better integrate aspects of multiculturalism within the music curriculum. Different age appropriate musical activities to implement in my classroom. ? -how to read all the notes Differentiating instruction for a wide variety of musical skill among students 1. Go over sheet of music to playing it for the remedial students - ie i see these notes now ...
